

Ni-Cad Battery Packs

Aero Design, Inc, manufactures emergency lighting sealed cell battery packs, cells, and temperature sensors for business and commercial aircraft and helicopters. Aero Design offers quality PMA's readily available to replace the high cost and long lead time of the OEM product. All products are certified through "Test and Computation" and supplied with an FAA PMA Supplement. All parts are shipped with an Aero Design 8130-3 Airworthiness Release Certificate.

Aero Quality Sales is the leading service and support supplier for Aero Design and can provide warranty and technical expertise in their FAA/CAA approved workshops in Stamford, CT, USA and Heston, UK.

Aero Quality Sales is the oldest and most experienced distributor of aircraft batteries with over 50 years in the business. Since we specialize in aircraft batteries, our staff are, by far, the most knowledgeable in the industry. This combined with our large inventory along with our support equipment and service, make Aero Quality Sales the unique and obvious choice for all your Aero Design battery requirements.
